

# GROWING UP

## MALE

### workshop

for Parents & Sons  
ages 10 - 13

The change from boy to young man...alternately exciting and scary...obvious and mysterious...greeted with a mixture of anticipation and conflict by parents and sons alike.

What's normal? What does a boy at this stage want and need to know? How can he talk to a parent about his concerns?

This program can open the door to understanding and communication between parents and sons in this fundamental part of their shared experience: growing up. This program is intended for boys approximately 10-13 years of age with a parent.

#### PROGRAM INCLUDES:

- What to expect during puberty and early adolescence.
- Award winning films...warm, realistic, and thought provoking.
- A time for parents and sons to share their thoughts, experiences, and concerns on this subject.

\$20.00 per couple.

Includes dinner and materials.

Scholarships available.
